Fee on request

Judith Bogner is a UK-based broadcaster, event host and commentator for international finance, business and geopolitics. For more than ten years she was one of the main European anchors of the financial news channel Bloomberg

Global Television. Since 2012 Judith runs her own business, offering event and business facilitation, mediation and commentating. Since 2014 Judith has expanded into acting: she appears in the role of the “Chancellor’s Wife in the latest edition of the Mission Impossible franchise “Rogue Nation” (released July 2015).

Judith regularly moderates events for corporate and institutional clients, including the Federation of German Industries, the Brewers of Europe, Luxembourg for Finance, the Dutch Development Bank FMO, Ergo Insurance, State Street Germany and Allianz Global Assistance.

Most recently she acted as Master of Ceremony for the Luxembourg Renminbi Forum 2014 and 2015, the Eurozone’s flagship event for doing business in Renminbi. At the Hannover Fair 2015 she joined the Indo-German Business Summit with Keynote Speakers Chancellor Angela Merkel and India’s Prime Minister Narendra Modi and hosted a panel discussion with Joe Kaeser (Siemens), Cyrus Misty (Tata Sons), Baba Kalyani (Bharat Forge) and Klaus Rosenfeld (Schaeffler AG).

Between May 2001 and October 2011, Judith anchored and reported for Bloomberg’s top European-based programs as well as for partner media outlets Bloomberg UTV India, Bloomberg HT Turkey, N24 and F.A.Z. Radio in Germany. She conducted countless interviews with market players in the international financial community as well as political and business leaders, such as current and former head of the European Commission Jean-Claude Juncker and Jose Manuel Barroso, Dieter Zetsche (Daimler), Peter Brabeck-Letmathe (Nestle) and Sir Martin Sorrell (WPP). The Global Financial Crisis that began in 2007 with increasing losses by investment funds from mortgage-backed securities took her career as financial news presenter to a whole new level: during 2008 and 2009 she hosted “Credit Quake: Europe on Edge”, a series of special shows that covered all aspects of the Subprime Crisis, the collapse of Lehman and the subsequent fallout in financial markets. The program was shortlisted for the 2009 AIB Awards.

Judith was born and raised in Weiden in der Oberpfalz, a small town in Bavaria, Germany. Since 2001 she has made her home in Greater London, UK, after having lived in China, Ukraine, France, Italy and Switzerland. She studied in Germany and China and holds a degree of Bachelor of Arts from the University of Applied Sciences in Bremen and a degree in Hotel & Restaurant Management. Judith is bilingual in English and German, furthermore she speaks Italian, French and Mandarin Chinese.

Judith is an accredited mediator and member of the UK’s Civil Mediation Council.

Judith is also trained as Shamanic Practitioner and Kundalini Yoga teacher and offers private sessions to clients who wish to find balance, well-being and wholeness.

In her spare time, Judith enjoys working as classic model for commercials and writing for her first book.

testimonials:

- *“Luxembourg for Finance is the Agency for the development of the Luxembourg financial centre and organiser of the Luxembourg Financial Forum, an event to which guests are personally invited by the Prime Minister. In this context, we confirm that we had the opportunity of working with Judith Bogner. On four occasions she moderated a round table discussion at the Forum and from year to year we were very particular in our request to Bloomberg to let us have Judith in this role.*

The round tables moderated by Judith were on the following topics:

Forum 2007: Regulatory Frameworks for Global Finance – Opportunities and Challenges

Forum 2008: Financial Markets: Trapped in a Global Crisis?

Forum 2009: The Future Role of Finance: Creating Value for the Real Economy

Forum 2010: Are New Financial Practices Showing the Way?

Judith has a lively manner of moderating a debate and demonstrated mastery of a range of financial topics. She was well prepared on each occasion and moderated the panels with skill. She was also diligent in attending the formal receptions to which she added value as ambassador for Bloomberg. We were always impressed by the job Judith did and have no hesitation in recommending her. She is serious, methodic and extremely effective in her work, and her engaging personality has made her a friend of Luxembourg for Finance.” – FERNAND GRULMS – CEO [Luxembourg for Finance](#)
